

Intihon taxlili : Ojzari.

- Basic

- Supervised ML nina?
- Follow-up (Behind)
 - Classification vs Regression
 - Example of the model (SML).
 - Data balanced bilmaza nina bilsadi.

Intihon taxlili : Python problem solving.

- Basic

- Data types
- Functions
- Data structures
- Built in functions

- Intermediate

- Classes
- OOP
- Files

- Advanced

- Complexity
- Parallel Processing
- Advanced data structures.

Caption

Intuition behind ML problem solving

- Basic
 - Data preprocessing
 - Data splitting
 - Training with simpler Algorithms
 - Basic visualization
- Intermediate
 - Feature engineering
 - Cross validation
 - Different Algorithms
 - Tuning
- Advanced
 - Handle with large datasets
 - Custom evaluation metrics
 - Custom transformers
 - Basic Deep learning.

Data Preprocessing ka organized
3 to useful data tashkili karna -
Optimize karna Data preprocessing ka
data optimize - Custom transformers

Model Evaluation - Optimize karna
metrics karna optimize - Custom metrics
